•	SM	5-7	292	219/35 = 254
•	SH	8-12	528	293/59 = 352
•	WE	PreK-6	668	341/62 = 403
•	WH	7-12	545	287/61 = 348
•	WWE	K-6	647	456/58 = 514
•	WWH	7-12	569	369/43 = 412
•	WPE	K-4	574	213/39 = 252
•	WPM	5-8	471	130/40 = 170
•	WPH	9-12	409	107/27 = 134

Goals for Calhoun County's Future (Yes, we want our kids to have it ALL)

- **Operation Graduation- 100% OF OUR STUDENTS GRADUATE FROM HIGH SCHOOL PREPARED!!!**
- Literacy - basic foundation skills in reading, writing and speaking.
- **POWER UP Learning Initiative With Bring Your Own Device (BYOD)- Increase Student Engagement- Create 21st Century Global Classrooms that are innovative. Calhoun County Schools engage ALL students in an exploration of current world issues through project-based learning, interactive simulations and curricular materials**
- Rigorous Academic Emphasis - world class standards, increased graduation requirements, etc.
- Diverse Educational Experiences - exposure to multiple teaching, learning and cultural activities.
- Technology/information Literacy - technological literacy for life and for a career.
- Postsecondary/Career Preparation - opportunities for career information, exploration and skill development.
- Quality extracurricular opportunities

Philosophy: WE BELIEVE!

- Calhoun County School District operates on the following principles:
- Great teachers make all the difference in a student's education.
- All students have the capacity to learn and achieve and are expected to succeed.
- All students have a right to competent, caring teachers and administrators.
- All students have a right to high academic expectations.
- All students need basic knowledge and experiences to develop physically, cognitively, socially and ethically.
- All students have a right to the best school structure, learning climate, academic environment and resources the district can provide.
- **PARENTS AND COMMUNITIES ARE VALUED AND PARTNERS.**

Purpose of Community Meetings

- Establish Parent and Community Partners
- To Communicate CCBOE Goals
- To describe the duties and responsibilities of digital citizens
- To assist students in learning how to manage digital content and use technology appropriately
- To prepare students for life in the 21st century

Welcome!

Digital Rights and Responsibilities:

POWER UP

**Calhoun County Bring Your Own Device
Community Meetings
2013**

"Digital citizenship can be defined as the norms of appropriate, responsible behavior with regard to technology use." --[Mike Ribble](#)

Google

Google Search

I'm Feeling Lucky

Examples

- communication practices
- online privacy and acceptable use policies
- social networking etiquette
- email and texting etiquette
- online behavior
- cyber bullying
- handling spam

What else?

DIGITAL RIGHTS AND RESPONSIBILITIES INCLUDE:

Digital rights and responsibilities can formally be defined as: those freedoms extended to every student, administrator, teacher, parent or community member. Just as in the American Constitution where there is a Bill of Rights, there is a basic set of rights extended to every digital citizen.

<http://digiteen09-1.flatclassroomproject.org/Digital+Rights+and+Responsibilities>

Digital Rights

Digital Citizens have the right to:

- privacy
- free speech
- safety
- Intellectual property

Digital Citizens have the responsibilities of:

- Reading through rules and regulations
- Reporting cyberbullies
- Citing sources
- Reporting threats
- Requesting permission
- Doing no harm

Ways to be a good digital citizen

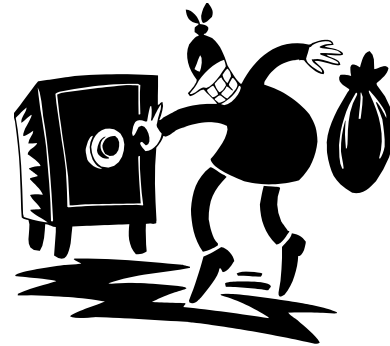

DIGITAL RESPONSIBILITIES

Appropriate Examples of Digital Rights and Responsibilities

- Paying for downloaded music
- Properly using clip art in pictures (obtaining the rights to using media)
- Citing sources

- Stealing someone's password
- Writing on a blog without listing the source
- Reprinting/copying a digital photo without permission
- Uploading photos of your friends onto a social networking site

Inappropriate Examples of Digital Rights and Responsibilities

Scenerio

- Case/Scenario:

A half hour before class, Olivia remembers that an essay on George Washington is due. Olivia rushes to the school technology lab and goes to Wikipedia to cut and paste important facts, but fails to acknowledge the authors of the information. ***What, if any, Digital Citizenship law has she broken?***

How Educators can teach/promote Digital Rights and Responsibilities

Let's Talk:

- Define citizenship
- Classroom Code of Ethics
- Develop awareness
- Check references (aka The Wikipedia Effect)
- Scenarios
- Role-play
- Model & demonstrate (Do as I do)

Why CCBOE is Changing?

Engage Me!

POWER-UP!

Increasing Student Engagement with Bring Your Own Device Learning Initiative (BYOD)

Increasingly, those who use technology in ways that expand their global connections are more likely to advance, while those who do not will find themselves on the sidelines.

2009 Horizon Report

Learning to Change

project-based learning

Architectural floor plan of a building with rooms 314 through 338. The plan shows a central corridor with rooms on both sides. Rooms 314, 315, 316, 317, 318, 334, 335, 336, 337, and 338 are labeled in boxes. Rooms 314, 315, 316, 317, 318, 334, 335, 336, 337, and 338 are labeled in boxes. Rooms 314, 315, 316, 317, 318, 334, 335, 336, 337, and 338 are labeled in boxes. The plan includes dimensions for room widths and heights, and a scale bar at the bottom.

A close-up photograph of a brown leather pencil holder. The holder has a worn, textured surface with a lighter, yellowish-brown rim. Inside the holder, several writing instruments are visible: a yellow ruler on the left, a blue pen with a silver clip in the center, and a black pen with a silver clip on the right. The background is a plain, light-colored surface.

POWER UP management

A young child with light brown hair, wearing a white t-shirt and white cargo pants, stands in a grassy yard. The child is looking up with a joyful expression as numerous pink petals or small flower pieces fall around them. In the background, a two-story house with white siding and dark shutters is visible. The scene is captured in a cinematic style with soft lighting.

Solutions and Strategies

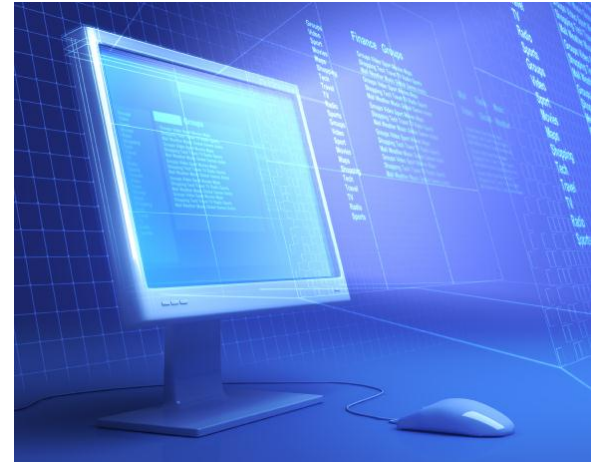

Digital Natives

- Born after 1990
- Highly connected
- 97% play video games
- 75% have cell phones
- 68% use IM
- 70% use SN sites
- Easily adapt and adopt
- Generate content

Brave New World

- Personal relationships heavily influenced by “bubble” that the Internet represents
- Accept web as dominant medium for social interaction with peers
- More comfortable with a public persona

Friend or Foe?

- Easy to fake online persona
- Predators adapting to Social Networks
- Practice of “Sextortion” includes using digital content for blackmail

15-year-old girl on Facebook

Adults Only?

- Pornography more available and graphic than ever before
- Increasing chances of accidental exposure due to spam attacks on social networks
- Average age for first exposure to pornography is 11

Cyberbullying

III.

Solutions and Strategies

It's Not About Technology

Bullying is bullying and has always happened before technology!

- RISK FACTORS
- **The biggest danger for young people online is... other young people.**
- **NB: Cyberbullying *is* bullying.**
- **It is the same; it is different.**
- **Young people *don't distinguish* "cyber" from "regular" bullying.**

We have to ALL Teach Digital Citizenship to our Children

Tech Savvy

Tech Savvy Youth

Cyberbullying is *not* a technology issue.

It is a social, developmental, educational, risk & protective, prevention & intervention, school climate issue.

Response *does not* (always) call for tech-savvy solutions.

It calls for a different kind of “savvy”.

Inappropriate Use

- **Sexting is not a singular thing. It covers a range of possible actions and motivations.**
- **Let’s define the term for our K-12 world:**
- **Sexting is online communication involving**
 - **- youth produced sexually explicit or suggestive images**
 - **- created and shared through the use of personal communication technologies.**
- **Wolak & Finkelhor: Sexting: A Typology, 2011**

Cyberbullying

Bullying:

Intentional, repeated, negative behavior toward another/others, involving a lack of empathy and an imbalance of power.

Using the Internet or other mobile devices to send or post harmful or cruel text or images to bully others.

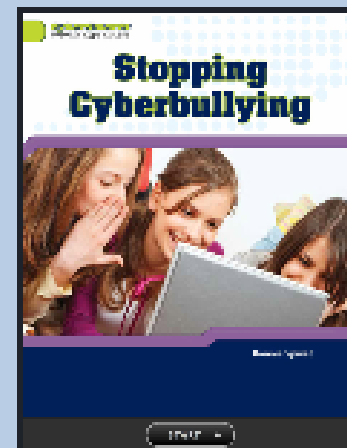

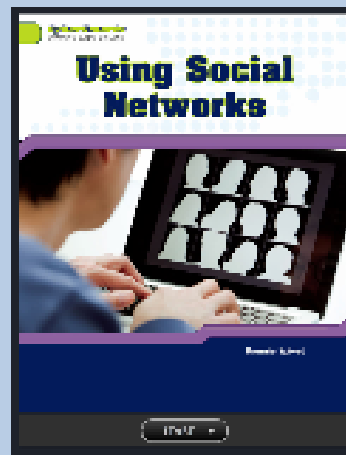

Nancy Willard, Director, Center for Safe and Responsible Internet Use

Cyberbullying is willful and repeated harm inflicted through the use of computers, cell phones and other electronic devices.

Sameer Hinduja & Justin Patchin, *Bullying Beyond the Schoolyard*

CCBOE Anti-Harassment Policy

- **HIB – Bullying**
- **WA State Example: RCW 28A.300.285 – Anti-Harassment**
- “Harassment, intimidation or bullying” means any intentional **electronic**, written, verbal or physical act [which]
 - a) Physically harms a student or damages the student’s property; **or**
 - b) Has the effect of **substantially interfering** with a student’s education; **or**
 - c) Is so **severe, persistent or pervasive** that it creates an **intimidating or threatening educational environment**; **or**
 - d) Has the effect of **substantially disrupting** the orderly operation of the school.

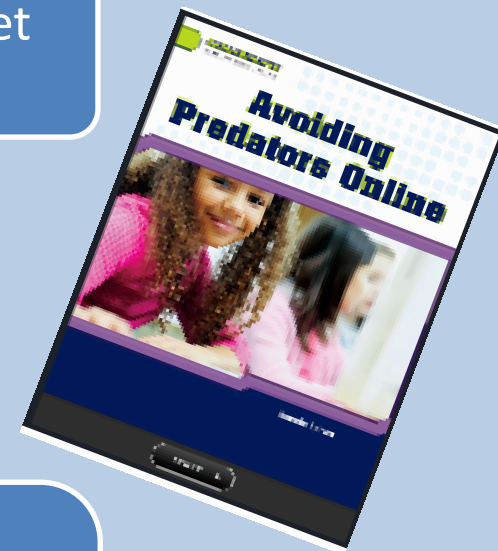

Interactive, Safe, Hands-on Simulated Internet Experience

CyberSmarts

Staying Safe Online

Understanding the dangers and risks of connecting with others online

CCBOE POWER UP Goals

- What Can We Do-
- ***Awareness training for all***
- - ***Policies and procedures*** are updated and in place.
- - ***All staff*** are trained in policies, procedures, digital safety, and cyberbullying; ***social networking*** *
- - ***Cyberbullying*** is included as **a component of** ongoing bullying and harassment prevention programs.
- - ***All students are educated*** about appropriate online behaviors and positive peer norms.
- - Digital safety, security, literacy, ethics and citizenship are ***infused across the K-12*** curriculum.
- - ***Parents*** and the larger school community are fully involved

Cyberbullying & Digital/Internet Safety

- The Internet offers a wealth of resources and material for education. Accessed through a variety of electronic devices, it also allows for rich and diverse opportunities for 21st century communications. These devices are becoming ever more diverse and ubiquitous. They raise issues of digital / Internet safety and digital citizenship. Along with ensuring that our young people have the technological skills to effectively use digital devices, platforms, and resources for educational purposes, we also have the responsibility to teach them how to be safe and productive digital citizens of the 21st century. This responsibility has been mandated through the [Protecting Children in the 21st Century Act](#), which is Title II of the Broadband Data Improvement Act of 2008.
- Within this context, Washington's [anti-bullying law](#) includes the prohibition of cyberbullying. Cyberbullying is bullying using electronic devices to initiate repeated negative behavior toward a less-powerful person. Electronic name-calling, shunning and shaming are all forms of cyberbullying. So are spreading rumors, gossiping and making threats online. Schools are permitted to discipline students who engage in cyberbullying if it disrupts the orderly operation of school. Training materials are available on the Safety Center web site.
- [Cyberbullying – What Is It](#): This presentation provides a general background into cyberbullying.
- [Cyberbullying – It's Not About Technology](#): More specific suggestions for dealing with cyberbullying in schools.

<http://www.k12.wa.us/SafetyCenter/InternetSafety/default.aspx>

What Parents Can Do!

- Talk to your kids!
- ***At the end of the [cyberbullying] comments are REAL children, not just some “cyber kid” the cyber bullies will not have to confront after they push the send button.***
- Great resource
<http://www.k12.wa.us/SafetyCenter/default.aspx>

- Bullying through electronic means
- Text, Facebook, YouTube common mediums
- Potentially fatal (Megan Meier, Phoebe Prince, Alexis Pilkington)

- **Ubiquitous**
Phones, computers
- **Public**
Visible to anyone
- **Constant**
School, play, home
- **Viral**
Social mediums
- **Serious**
Risk of suicide

Solutions and Strategies

Be a Parent and Be Involved

- Stress respect of others
- Set clear rules
- Set clear consequences

Be Proactive

- Download and review with your child the InternetSafety.com Gameplan
- Get savvy
- Get interactive
- Get the right tools

Family Internet Safety Gameplan™

The following Gameplan establishes the online ground rules for our home. We will display this Gameplan and update it periodically as our children grow older.

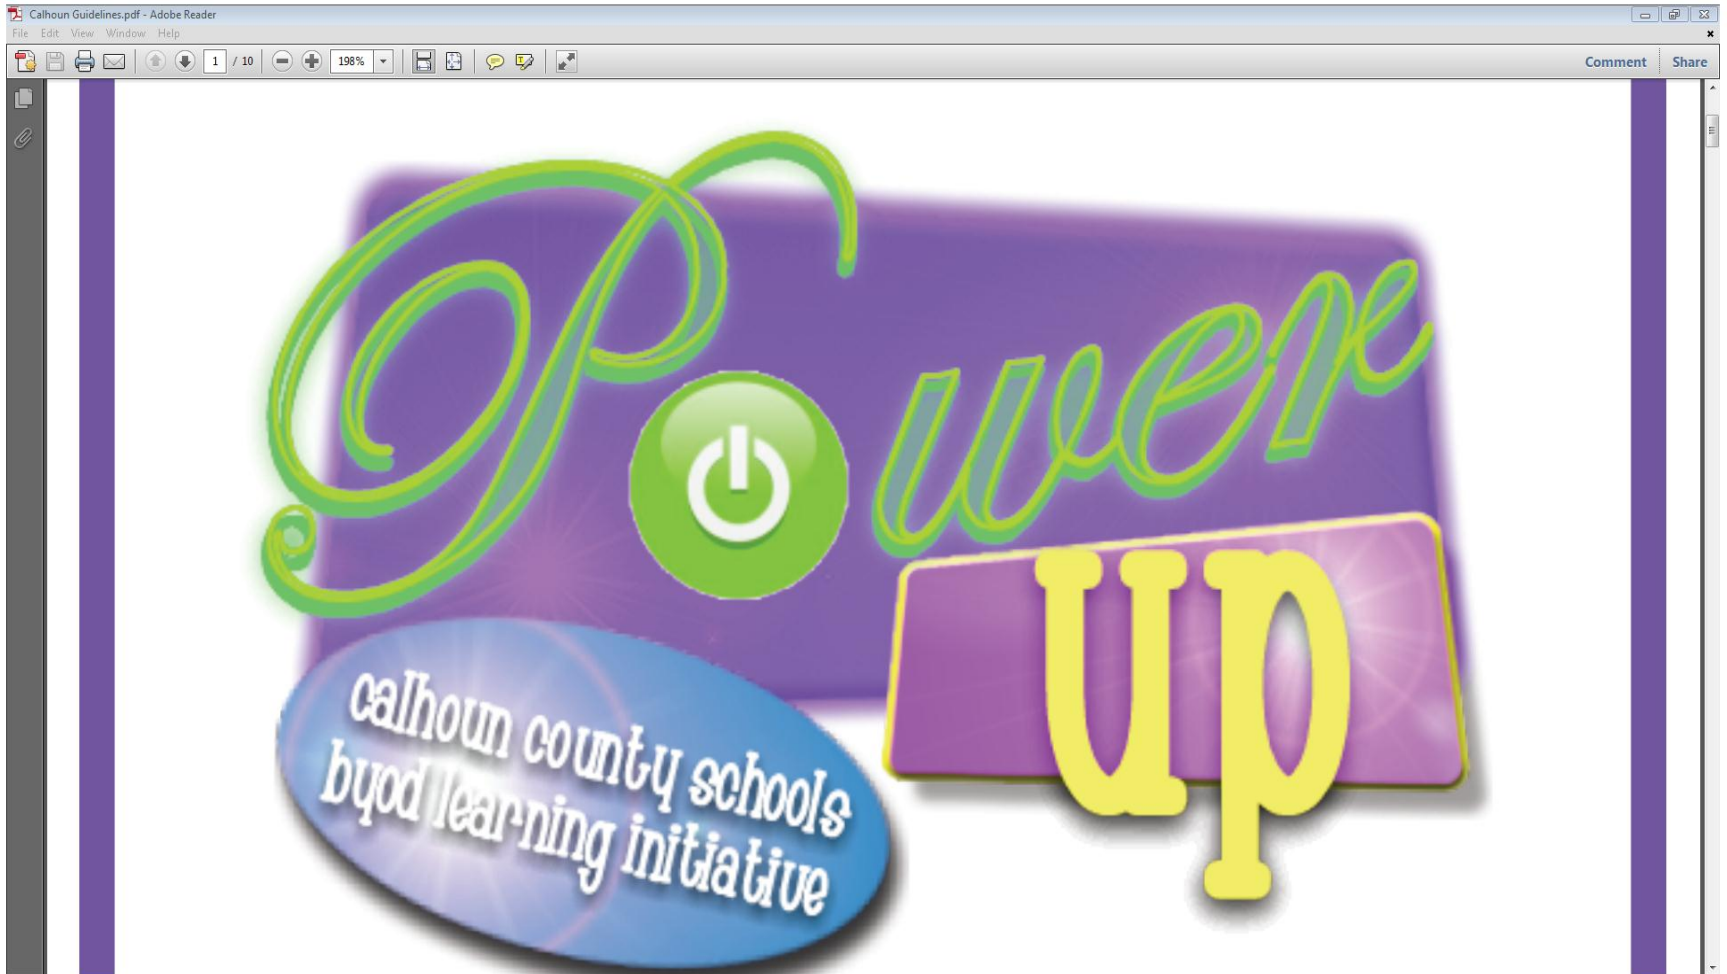

1. **We will never give out personal information** such as our last name, address or phone number. We should also not give out the name of our school, our city, our siblings, our sports team or our parent's workplace.
2. **We all agree to not give our passwords to anyone outside of our family.** We have all agreed upon user names to use while we are on the Internet. I will not change the settings for my computer or my password without my parent's permission.
3. **We all agree to limit our online time so that it doesn't interfere with other activities.** We agree to follow the time limits that our family sets and not let the Internet take time away from homework, sports, face-to-face interactions or family time.
4. **I will never meet an online friend in person.** Just as I stay away from strangers on the street, I will be careful about strangers on the Internet. If anyone ever asks to meet with me off line, I will notify my parents immediately.
5. **I will tell my mom or dad right away if I come across something that makes me feel uncomfortable.** If anyone uses bad language or mentions things that make me uncomfortable, I will immediately log off and tell my parents.
6. **I will not remain on or click on a page that says, "For Over 18 Years Only."** If this happens, I will log off and I will let my parents know. I understand that I'm only a click away from bad sites and that these pages are definitely not for kids.
7. **I will only download pictures and files with my parent's permission.** Some of these files may contain inappropriate pictures or dangerous viruses that could mess up our computer.
8. **I will not send pictures of my family or myself to anyone online.** The only way that I am allowed to do this is if my parents say it is all right.
9. **I will be safe everywhere.** I will follow the same Internet safety rules at my friends' houses, at school and at the library that I do while I'm at home.
10. **I understand that nothing is private on the Internet.** I agree that my mom or dad can read my mail or check the sites that I have been visiting — not because they don't trust me but because they just want to make sure that I am safe.

We agree to the above InternetSafety.com Gameplan:
